High Island Creek/Rush River Nutrient Management Workshop

March 11, 2010

11:00 AM – 3:00 PM

Sibley County Service Center
111 8th St.
Gaylord, MN 55334

This workshop is designed to help crop and livestock producers create nutrient management plans using farm and field information in a small group setting. Nutrient management plans, if developed and implemented properly can have agronomic, economic, and environmental benefits for the farm operation, watershed, and region. This workshop is sponsored by the Minnesota Extension Services in conjunction with the High Island Creek & Rush River Watershed Implementation Projects. For more information or to sign up for the nutrient management workshop contact one of the following;
