FREE SCREENING FOR NITRATE-NITROGEN, AND CHLORIDE IN YOUR WELL WATER

Nitrate and Chloride are indicators of contamination from land use

EVENT DETAILS

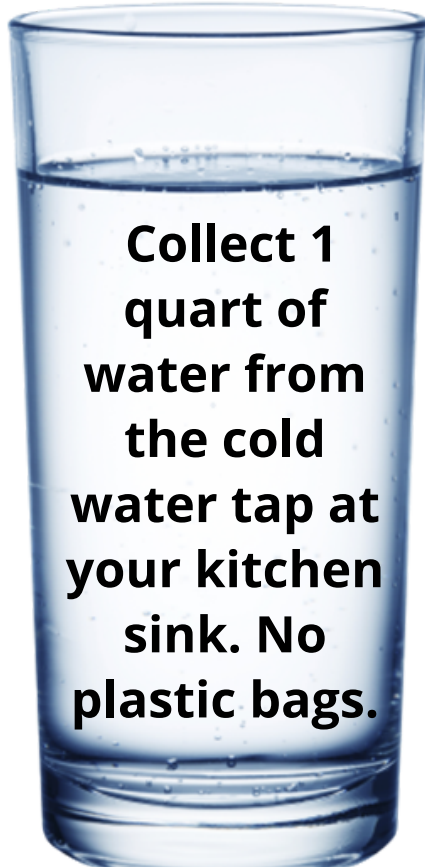

Thursday, July 9, 2026

11:00AM - 5:00PM

Arlington Community Center

204 Shamrock Dr Arlington MN 55307

- Bring us a sample of your well water and we'll provide you with same-day Nitrate-Nitrogen, and Chloride screening results.
- Groundwater professionals will be on site to discuss your results with you and provide guidance if needed.
- All residents are welcome to attend the screening event.
 - Households with a pregnant person, a child under the age of one, folks enrolled in government programs, and low income households are especially encouraged to participate.
- **Free 5-parameter test kits will be available for Sibley and Nicollet County residents to bring home from the event.**
 - The cost of these tests is covered by our Private Well User grant funding and will include results for Nitrates, Manganese, Arsenic, Lead, and Coliform Bacteria.

**Collect 1
quart of
water from
the cold
water tap at
your kitchen
sink. No
plastic bags.**
